Hi Rich,
I will plan on attending the conference call on Wednesday. If I find someone else within TechLaw to assist with the data management I will also have them sit in on the call.
Thanks and Happy New Years!

Suddha Graves

No, just the data for now. but hold the presses.....

an internet storage drive or EPA ftp site would be alot easier, not sure how we do that. do you have any idea?

It is safe to say that we are overwhelmed with data. More than I knew when I asked for this data to be uploaded.

One of the primary goals is to get this data into a real database so it can be queried. It also needs to be reviewed for consistency....like interpretation of blank fields (we don't know if that's a Non Detect or they just didn't analyze, etc.).

I was under the misunderstanding that this data would only be a "few" (a relative term) files. Of course, that's because I don't have access to the share drive to see and didn't ask the size and nobody told me (Maybe Bob H tried), until you.

Are you working on Tuesday, I assume not, based upon your message below.

I will be setting up a conference call for Wednesday.

I'd like you, a Techlaw data person rep., Stephanie, John, and Bob on the call if possible.

I will propose some time and you guys get back to me... Suddah (I will include you in the invite...let me know who your data lead will be if its not you).

To all...please try and make yourself available for this call. I would expect you all will be able to develop a game plan quickly. Steve and Techlaw will be the implementors for now so Steph, Bob, John, I need your guidance to move forward.

Thanks to all and Happy New Year.

Rich

Rich

I have already started the Upload process to the Data PDF Files that are located on the EPA Network Drive of

Ex. 6 - Personal Privacy

To the Dimock OSC Web Site. They are all under the DATA Listing for this OSC Website. I am Halfway thru above Folder with a lot more to go. I Will be back in the R3 Phila OPR office on Wed. (01/04) and will continue to load more. Seems like a Internet Storage Drive or EPA ftp site may be more easier - just a thought.

Once I am done loading up All contents from above shared R3 Shared Network Folder I will let you know. What about the other Main 'dimock' Shared Folders. There are other Folders and Files all within the 'dimock' Shared Folder besides "napolibernslolnickCDdata". Will these Folders and files within will need to be up loaded to this Dimock Residential OSC Web Site as well?

Happy 2012

Is there not a EPA FTP site or Internet External Storage Site [EX: adrive.com] that we can use to upload this 1.71 GB of Sub-Folders and Files. Give out the Log On information to designated personnel.

So, I assume we still can't. Access from the field. Right? I wonder if the OSC Web page will take it.

John/Bob. Any comment?

In am working for another 2 hours. BE ADVISED the following R3 Shared Folder...

Ex. 6 - Personal Privacy

is almost 2 GB is SIZE. That is a VERY LARGE amount of data in that Folder.

It contains 13 SUB-Folders and 17 Files within the 'napolibernslolnickCDdata' Folder.

It appears to all be PDF Format Files. Does ALL of the contents of "napolibernslolnickCDdata" Folder need to be uploaded?

I logged onto the <http://www.epaosc.org> Web Site and did a search for ALL Region 3 OSC Web Sites - There is NO listing for Dimock. What is the listed Site Name within OSC Web? Where is it located City, State?

Steve, when you can, would you copy the rest of the files from the share drive address below to the Dimock OSC web page. I will give you rights and you will get an email. You will have to log in to see the web page. Thanks for the assist. Rich.

Sure! So, that was fun. I added as much of the data that I could to the website. I hope there are few duplicates up there. I really didn't see much data up there yet. Did I miss something? Suddha, good luck getting through all of this. The Gesford stuff and the wellsite investigation information is not specifically residential well data, but instead data from industry on their gas wells, alleged releases and alleged ;) investigations.

I absolutely tried for over 1.5 hours to load all of the lawyer's data tables. I am not going to spend the rest of today trying again. The upload failed after i zipped and loaded. If there is someone (i.e. EPA database manager?) that can provide that info to the OSCs through the website, please have at it. The location of these files is on the regional office shared drive at:

Subject: Dimock Data

Hi Karen,

I am beginning to have my START get a firm handle on all the previous data. I am sure you have done this already, but I am just double checking that all the data received by EPA on Dimock is uploaded to the OSC web page.

Thanks. Rich.

Bob, I assume that Karen has all the data that has been received by ATSDR. right?
